INSTRUCTIONS FOR SURGICAL APPOINTMENTS

1. NOTHING to eat or drink including water, for 6 hours prior to surgery.
2. Notify the office as soon as possible for any development of “cold” or “flu” symptoms such as stopped up nose, sore throat, or temperature.
3. If you are having sedation, you must be with someone that can stay with you while in the office and drive you home.
4. Patients under the age of 18 years of age must have a parent or guardian accompany them.
5. Patient is advised NOT to wear earrings, hair pieces, contact lenses, tight sleeves or tight clothing.
6. Plan to stay with a responsible adult on the day of surgery.
7. The first few hours after surgery you should not walk without assistance and plan to minimize activity for 24 hours.
8. If you are diabetic or take medications, please check with our office regarding any special instructions that may apply.
9. No acrylic or gel nails on left index finger.
